Click & Go  
For quick handpiece changeovers

### HIGH PERFORMANCE HIGHSPEED HANDPIECES WITH OPTICS

The Handpiece Experts Air Power line of German designed and manufactured handpieces provides high torque coupled with superior cutting speed consistency. Outfitted with a premium turbine for enhanced operating efficiency, each handpiece offers constant, smooth and effortless cutting in a variety of procedures. High-powered 25,000 lux optics withstand to maintain brilliant illumination.

### SUPERIOR DESIGN

Our titanium-plated handpieces are ergonomically designed and finely balanced for exceptional working comfort and performance. Designed with total flexibility and versatility in mind, Air Power handpieces perform optimally during any procedure.

### IMPROVED DURABILITY

With a long-lasting premium turbine and patented Protective Head System (PHS) with dual anti-retraction feature, Air Power handpieces will be dentists' preferred instrument for years to come. The PHS feature ensures that the turbine and bur remain in place no matter how the handpiece is used. Damaging debris is unable to enter the turbine area, greatly increasing the life of the turbine and the handpiece.

### PRODUCTS FEATURES

- Titanium-plated casing
- Smooth, easy-to-grip contours
- Optimum hygiene
- Optimum working speed
- Ergonomic design

Handpieces, from the Experts you can trust.

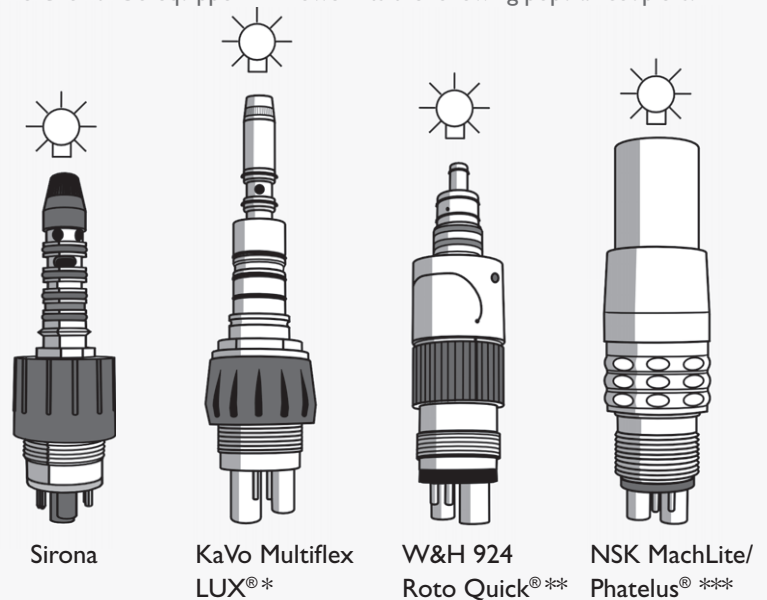

## INNOVATIVE "CLICK & GO" SYSTEM SWAPS HANDPIECES IN SECONDS

This convenient feature allows any Air Power handpiece to work in conjunction with many of the most popular brand couplers and air delivery systems. Dentists no longer need to change anything more than the handpiece itself – yet another feature that makes Air Power a flexible and powerful addition to any dental practice.

## ALWAYS A PERFECT FIT

The Click & Go equipped Air Power fits the following popular couplers:

\* KaVo Multiflex LUX® = Registered Trademark of KaVo  
 \*\* W&H Roto Quick® = Registered Trademark of W&H  
 \*\*\* NSK MachLite/Phatelus® = Registered Trademark of NSK
